

PIPE WRENCHES - STILLSON PATTERN

- Drop forged and heat treated handle and jaws.
- High grade cast malleable iron frame.
- Accurately machined screw threads & nut with spring jaws
- When pressure is applied, the stress is transmitted through the steel hook jaw & adjusting nut to the handle jaw without any impact on the frame
- Hardened and tempered jaw teeth with V-grooves in opposite directions enabling a ratcheting action
- Attractive paint finish

ORD. #	LENGTH		MAX. OPENING	
22027217	10"	250 mm	1-5/16"	33 mm
