

1000V Pliers

Professional Quality Pliers, designed for enhanced safety & comfort

3X LIFE

Hot forged Cr-V steel makes these the toughest pliers in their category

TOUGH & RESILIENT

Precisely induction hardened (52 – 60 HRC) cutting edges for clean cutting of soft, medium & hard wires

SLIP GUARD

helps avoid spark-over or current passage from bare pliers to the user's hands

1000V SAFE

Tested to VDE standards & insulated to 1000V AC for live wire working

SAFE & SECURE

Shock resistant, ergonomic & anti-slip grip for highest safety & comfort

1000V PLIERS **NEW**

- 1000V Pliers are manufactured using latest technology & superior materials which go through extensive testing and quality checks
- These pliers are tested to VDE standards and insulated to 1000V AC that ensure safety while working on live wires
- The ergonomically designed handles comes with features like anti slip grip and a safety slip guard that prevents users from electrical spark
- Individually hot forged from Cr-V, steel fully hardened & tempered upto 50 HRC with a rust inhibiting black phosphate finish, these are by far the toughest pliers in their category
